

Art & DT Year 1

Summer 2

Space

Key Skills:

Paint lines of different shapes and thickness

Say when a product needs to be made stronger

Plan their ideas before construction

Exchange conversation with others about how to go about creating their product

Explain what they are making

Explain what they want to do

Use pictures and words to plan

Sequence of Learning

What are we going to make and how will we create it? Share our ideas with others.

How can we make our product strong?

How can we add effects onto our planets?

Key Vocabulary:

3D

Glue

Paper mache

Sphere

Design

Thickness

Stronger

Plan

Final Outcome

To produce a hanging 3D solar system to display in the classroom
